13b. Authorized Signature:	13c. Approval/Authorization No:	14b. Authorized Signature: <i>[Signature]</i>	14c. Approval/Certificate No: <b>GIIR167K</b>
13d. Name (typed or printed):	13e. Date: (dd/mm/yyyy)	14d. Name (typed or printed): <b>CHRIS PATRICK</b>	14e. Date (dd/mm/yyyy): <b>19 JUL 2014</b>

**User/Installer Responsibilities**

It is important to understand that the existence of this document alone does not automatically constitute authority to install the aircraft engine/propeller/article.  
Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts aircraft engine(s)/propeller(s)/article(s) from the airworthiness authority of the country specified in Block 1.  
Statements in Block 13a and 14a do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.
