13g. Name (Typed or Printed) TERRY WEEKS		13h. Date (dd/mm/yyyy) 05/Sep/2018		13i. Name (Typed or Printed)		13j. Date (dd/mm/yyyy)	
User/Installer Responsibilities							
It is important to understand that the existence of this document does not automatically constitute authority to install the aircraft engine/propeller article. Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts such aircraft engine(s)/propeller(s) article(s) from the airworthiness authority of the country specified in Block 1.							
Statements in Blocks 13a and 13d do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.
