13d. Name (Typed or Printed) Marshall F. Kress		13e. Date (dd/mm/yyyy) 22-Aug-2015		14d. Name (Typed or Printed)		14e. Date (dd/mm/yyyy)
<b>User / Installer Responsibilities</b>						
It is important to understand that the existence of this document alone does not automatically constitute authority to install the aircraft engine/propeller/rotor.						
Where the user/installer performs work in accordance with the national regulations of an aircraftless authority delegated from the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that the other airworthiness authority accepts all engine/propeller/rotor work from the airworthiness authority of the country specified in Block 1.						
Statements in Block 13b and 14a do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.
